FIG. 2

FIG. 3

4-6-7

FIG. 5 is a perspective view of the device 100 in a closed position, showing the housing 10, the lid 20, and the latch 30. The housing 10 includes a front panel 11, a side panel 12, and a bottom panel 13. The lid 20 includes a top panel 21, a side panel 22, and a bottom panel 23. The latch 30 includes a latch body 31, a latch arm 32, and a latch tip 33. The latch arm 32 is shown in a retracted position, allowing the lid 20 to be closed. The latch tip 33 is shown engaging the front panel 11 of the housing 10. The device 100 is shown in a perspective view, with the housing 10 and lid 20 being rectangular blocks. The latch 30 is a small component attached to the side panel 12 of the housing 10. The latch arm 32 is a curved arm that extends from the latch body 31 and is shown in a retracted position. The latch tip 33 is a small, pointed component at the end of the latch arm 32. The front panel 11 of the housing 10 has a recessed area where the latch tip 33 engages. The top panel 21 of the lid 20 has a recessed area where the latch arm 32 engages. The side panel 22 of the lid 20 has a recessed area where the latch body 31 engages. The bottom panel 23 of the lid 20 has a recessed area where the latch arm 32 engages. The side panel 12 of the housing 10 has a recessed area where the latch body 31 engages. The bottom panel 13 of the housing 10 has a recessed area where the latch arm 32 engages. The device 100 is shown in a perspective view, with the housing 10 and lid 20 being rectangular blocks. The latch 30 is a small component attached to the side panel 12 of the housing 10. The latch arm 32 is a curved arm that extends from the latch body 31 and is shown in a retracted position. The latch tip 33 is a small, pointed component at the end of the latch arm 32. The front panel 11 of the housing 10 has a recessed area where the latch tip 33 engages. The top panel 21 of the lid 20 has a recessed area where the latch arm 32 engages. The side panel 22 of the lid 20 has a recessed area where the latch body 31 engages. The bottom panel 23 of the lid 20 has a recessed area where the latch arm 32 engages. The side panel 12 of the housing 10 has a recessed area where the latch body 31 engages. The bottom panel 13 of the housing 10 has a recessed area where the latch arm 32 engages.
